

Organic Fodder Production – All Districts

Name of Project	Organic Fodder Production – All Districts
Project Location	All Districts
Area of the project	Will be based on area available in the district.
Approx. Project cost	As per Detailed Project Report
Focus sector	Animal Husbandry
Status of approvals	Greenfield project
Project contours	<p>With the rising demand for organic product including milk, demand for organic fodder has increased manifold, there is a huge gap of demands and supply in terms of fodder production. This project aims at meeting the demand supply gap of organic fodder.</p> <p>MOVCD scheme, implemented across 10 clusters of Assam covering 5000 ha of net cultivable land for organic farming of vegetables and other crops shall act as a feeder to this project.</p>
Investment Opportunities	Investors are expected to install appropriate plant and machinery, source raw material, provide for store facility and create marketing infrastructure under PPP framework
Connectivity	All proposed places / districts are well connected with good road ways and railways
Proposed Infrastructure	Developed land with electricity and water source is provided by the concerned department
Nodal agency	Department of Animal Husbandry & Veterinary, Govt. of Assam
