

Setting up and Maintenance of Haemodialysis Units in Medical Colleges

Name of Project	Setting up and Maintenance of Haemodialysis Units in Medical Colleges
Project Location	Across all Medical Colleges of Assam
Area of the project	3000 sqft per unit
Focus sector	Healthcare
Status of approvals	New Project
Project contours	The concerned authority proposes to invite private sector players for setting up of a Haemodialysis unit for management of Haemodialysis procedure at all medical colleges of Assam. Haemodialysis Units shall be set up for catering to the needs of the patients in Assam, who are presently going to faraway places for getting these services.
Investment Opportunities	Investors would be required to Build, Operate, Maintain and Transfer the Haemodialysis unit at the space provide by Medical Colleges. They would recruit and manage all the required personnel including consulting Nephrologists, technicians, nurses, ward boys and other support staff apart from providing required Electronic Medical Record system.
Proposed Infrastructure	Water, Electricity, Space for setup and power backup would be provided by the concerned authority.
Nodal agency	Health and Family Welfare Department, Assam
