

Setting up and Management of Cardiac Centres in District Hospitals

Name of Project	Setting up and Management of Cardiac Centres in District Hospitals
Project Location	Across all District Hospitals of Assam
Area of the project	3000 sqft per unit
Focus sector	Healthcare
Status of approvals	New Project
Project contours	<p>The concerned department apart from undertaking the strengthening of the primary health care services in the state has also been making efforts to provide specialized secondary and tertiary care facilities in the government hospitals.</p> <p>There are number of patients who require cardiac treatment on regular basis as well as emergency interventions. Cardiac treatment in private hospitals is unaffordable for the poor patients.</p> <p>In this regard, the concerned authority invites interested investors to commission, operate, maintain and manage the Cardiac Centres across all district hospitals of Assam.</p>
Investment Opportunities	<p>Investors are required to Build, Operate and Transfer the Cardiac Centres at the space provide by District Hospitals. They would recruit and manage all the required personnel including consulting cardiologists, technicians, nurses, ward boys and other support staff and provide for Electronic Medical Record System.</p>
Proposed Infrastructure	Water, Electricity, Space for setup and power backup would be provided by the concerned authority.
Nodal agency	Health and Family Welfare Department, Assam
