

Electronics Manufacturing Cluster, Guwahati

Name of Project	Electronics Manufacturing Cluster, Guwahati
Project Location	Guwahati, Assam
Area of the project	35 acres within IT Park in Guwahati.
Approx. Project cost	INR 290 crore (~USD 44.62 million)
Focus sector	IT & ITES
Status of approvals	DPR prepared. Land Identification is in progress.
Project contours	To develop the infrastructure for the growth of IT and electronics industry in the State, the project needs urgent attention. Electronics Manufacturing project will build a complete electronics ecosystem with a long term technology development path.
Investment Opportunities	<p>An amount of more than INR 750 Crore (~USD 115.38 million) is estimated to be invested in this sector over the next 5 years by private investors. Potential industries in this sector are Solar panel manufacturing, LED, CPE, photonics, optoelectronics etc.</p> <p>To start manufacturing of existing technology products, consolidating the ecosystem and driving the technology roadmap, incubation units, SME's and embedding core design and manufacturing skills</p> <p>Evolution to new technologies and establishing a world class centre for innovation and manufacturing.</p>
Connectivity	The project is planned to be setup in Guwahati and is well connected by rail, road and air
Proposed Infrastructure	Requirement of water and power will be facilitated by the Government.
Nodal agency	Assam Electronics Development Corporation Ltd. (AMTRON)
