IT Park at Silchar

Name of Project	IT Park at Silchar
Project Location	Silchar, Assam
Area of the project	43 acres
Approx. Project cost	INR 425 crore (~USD 65 million)
Focus sector	IT & ITES
Employment	Approx. 3000
Status of approvals	New Project
Project contours	The Information Technology (IT) Park is to be setup in the State in the city of Silchar with an objective for enabling suitable environment for IT/ITeS industries. The ecosystem in the State is ready in terms of available Urban Infrastructure and Public facilities, good air and rail connectivity, engineering colleges, large pool of English speaking skilled population and city living standards. The IT Park will not only provide facilities for the IT industry to have offices but would also generate employment thus contributing to growth and progress of the State.
Investment Opportunities	Major opportunities are in development of the entire physical and social infrastructure for 'IT Park' along with the government. Estimated 10 lakh sqft of built-up space. Setting up IT & ITeS facilities in the Park O&M of the park for stipulated period
Connectivity	The project is planned near Silchar and is well connected to Silchar Airport and Railway Station.
Proposed Infrastructure	Requirement of water and power will be facilitated by the Government.
Nodal agency	Assam Electronics Development Corporation Ltd. (AMTRON)
